rounakjain049@gmail.com

+91 9926850762

Bhopal, Madhya Pradesh, India

PROFESSIONAL SUMMARY

AI/ML-focused B.Tech student with hands-on experience building end-to-end AI applications, backend systems, and product features. Skilled in Python, machine learning, deep learning, LLMs, RAG, REST APIs, and databases, with product internship experience in research, requirements, and feature planning.

EDUCATION

- Sagar Institute of Science and Technology** Bhopal, India
B.Tech – CSE (Artificial Intelligence and Data Science); CGPA: 8.45/10 2023 – 2027
- Douglas Higher Secondary School** Bhopal, India
12th (PCM); 91% 2023

TECHNICAL SKILLS

Languages: Python, C++, C, JavaScript; DSA: 300+ problems on LeetCode & GeeksforGeeks
AI/ML: Machine Learning, Deep Learning, Computer Vision, NLP, LLMs, Generative AI, RAG, Prompt Engineering, TensorFlow, Keras, Scikit-Learn
Development: FastAPI, Flask, React.js, Node.js, Django, Pandas, NumPy, REST APIs, Database Design
Data/Cloud: PostgreSQL, MongoDB, Firebase, Supabase, AWS, Vercel, Render; Git, GitHub, Postman, Docker
CS Fundamentals: OOP, DBMS, Operating Systems, Computer Networks

PROJECTS

- HireMap AI** github.com/rounak-jain01/HireMap-AI
 - Stack:** FastAPI, React.js, Supabase, PostgreSQL, Llama API, Vector Search – Architected an AI hiring platform connecting resume parsing, semantic search, candidate profiling, and LLM-based job matching.
 - Implemented a RAG pipeline using embeddings and vector search for AI-powered career guidance; processed 20+ candidate resumes during testing.
- TNP Resume Analyzer** github.com/rounak-jain01/TNP-Resume-Analyzer | tnp-resume-analyzer.vercel.app
 - Stack:** React, Vite, FastAPI, PostgreSQL, Supabase, Gemini API, JWT – Developed an AI resume-JD analysis platform with LLM parsing, skill normalization, weighted matching, eligibility checks, and skill-gap analysis.
 - Built faculty batch analysis for up to 30 resumes with candidate ranking and insights, using JWT role-based access and temporary PDF/DOCX processing.
- AI Fasal Sarthi** fasal-sarthi-app.vercel.app | github.com/rounak-jain01/fasal-sarthi-app
 - Stack:** Python, TensorFlow, Flask, React.js, Firebase – Built an agricultural advisory platform integrating crop recommendation, disease detection, fertilizer guidance, and weather insights.
 - Curated 50,000+ images across 17 crop-disease classes and trained a CNN achieving 97% disease-detection accuracy.
- HouseHelp (Vibecoded)** github.com/rounak-jain01/Househelp-v3
 - Stack:** React Native, Expo, Firebase, Cloud Functions, Google Maps API – Built an Android household-service marketplace with Customer and Help/Maid booking workflows.
 - Implemented backend-driven assignment using category, service-area, availability, and conflict checks, with OTP job-start verification, timers, cancellation, extra-time requests, and map-based travel support.

EXPERIENCE

- Zarthi Pvt Ltd** Bengaluru, India
Product Management Intern Aug 2025 – Present
 - Conducted market, competitor, and user research across 6 domains and contributed to product strategy and feature planning.
 - Contributed to 5 feature workstreams across FurBall and Zarthi CRM; created user personas, journeys, PRDs/specifications, and aligned requirements with engineering in Agile/Scrum.

ACHIEVEMENTS & LEADERSHIP

Selected for **Zarthi Product Management Internship** among 16 candidates from 400+ applicants.
Selected among the **Top 50 students** under the Super 50 Program; Technical Lead, **Kaggle Koders Committee**, leading 30 students and 5+ AI/DS events.
President, **Entrepreneurship Cell**; grew the core team from 3 to 15 members and organized 7 events.
Certifications: **AWS Cloud Fundamentals**, **AWS Prompt Engineering**, **Anthropic AI Fluency**, **NPTEL C++**.
